CAREER OBJECTIVE

Passionate tech enthusiast aiming to build a career in cybersecurity, AI, and software development. Seeking opportunities to apply skills in ethical hacking, AI tools, and open-source technologies to create secure and intelligent digital solutions.

EDUCATION

BE, Computer Science & Engineering HKBK College of Engineering	2023 - 2027
Senior Secondary (XII), Karantaka State Board Science	2023
SBR PU COLLEGE BIDAR Percentage: 80.00%	
Secondary (X), Karantaka State Board GHS CHIMMANCHOD	2021
Percentage: 87.00%	

TRAININGS / CERTIFICATIONS

Cyber Security And Ethical Hacking Oct 2023 - Dec 2023 DROP Organization, Virtual
Completed DROP Certified Security Course (DCSC) in Cyber Security & Ethical Hacking. Gained hands-on experience in web application penetration testing, tools like Burp Suite & Nmap, and learned to identify and fix common vulnerabilities.

PORTFOLIO

PROJECTS

Students Academics Management system ↗ Apr 2025 - May 2025 A web-based system to manage and view internal results for HKBK College students. Faculty can securely log in, add students, enter marks, and view results. Built using PHP, MySQL, HTML, CSS, and Bootstrap with a responsive and user-friendly interface.	ESP32 Wi-Fi Deauther Tool Mar 2025 - Apr 2025 ESP32 Wi-Fi Deauther Tool A cybersecurity tool built using the ESP32 microcontroller that scans nearby Wi-Fi networks, allows selection of a target, and performs deauthentication/spoofing attacks. Includes a modern web UI with a dropdown to select targets, real-time logs, and a "Start Attack" button. Hardware: ESP32 Features: Target list dropdown, spoofing control, log viewer, modern punk-themed UI
Brute Force Password Cracker (Python) Jun 2024 A Python-based tool that simulates a brute force attack by systematically trying all possible password combinations to crack a target password. It demonstrates the importance of strong passwords and how easily weak ones can be broken.	

SKILLS

- HTML
 - JavaScript
 - Ethical Hacking
- CSS
 - Kali Linux
 - Burp Suite
- Node.js
 - Linux
 - Cybersecurity

- Python
- PHP
- Java
- MySQL
- C Programming

EXTRA CURRICULAR ACTIVITIES

- Participated in Open Source India 2024, India's leading FOSS event. Engaged in sessions on open-source tools, Linux, DevOps, and AI. Networked with experts and explored community-driven tech shaping the future of development and collaboration.
- AiDevCon 2025 Attended AiDevCon 2025, explored innovations in AI, LLMs, and generative tools. Participated in expert talks, demos, and workshops. Gained insights into real-world AI applications and trends driving the future of artificial intelligence
